Safe Products

OEKO-TEX® CERTIFICATION

All our garments – whether manufactured by us or outsourced – are tested for harmful substances and certified according to STANDARD 100 by OEKO-TEX®. www.0eko-Tex.com

Respectful Workplaces

Russell Europe is member of amfori, the leading global business association for open and sustainable trade. We improve the social performance of our supply chain via amfori BSCI. For more information visit www.amfori.org

Sustainable Sourcing

Driving awareness on environmental issues and quality are the core values of our Russell Pure Organic® products. We want to support your efforts in making the world a better place by offering eco-friendly, long lasting and fair produced clothing.

MADE IN OUR OWN FACILITIES

Unlike many other brands, Russell Europe produces the majority of its T-Shirts in its own production facilities in Morocco. We are proud to have this opportunity and to have a fantastic and dedicated team in Morocco.

FAIR COMPENSATION

We believe every worker has a right to compensation for a regular work week that is sufficient to meet the worker's basic needs and provide some discretionary income.

We believe overtime should not be required to accomplish this.

Since 2018, we have achieved a 13.8% reduction in water intensity, or the amount of water used per pound of fabric - achieving our goal of a 10% reduction ahead of 2030.

ZERO WASTE

Our sustained commitment to waste reduction means all our facilities are zero waste. This vital achievement is made possible through a system of process optimisation at every location that looks to better utilise all fabric – from cutting patterns that minimise scraps to implementing new design software to reduce samples.

CLOSE

Immediate vicinity to Europe means:

- » shorter transport routes*
- » lower CO² footprint*
- » faster availability*
- » Direct container shipments to our customers

* over 80% shorter transport routes. For comparison: Casablanca (MA) - Rotterdam (NL) approx. 3,100 km, Chittagong (BD) - Rotterdam (NL) approx. 16,500 km, Dalian (CN) - Rotterdam (NL) approx. 23,200 km

RENEWABLE ELECTRICITY (WIND ENERGY)

The majority of the electricity we use in our production facility comes from a wind farm.

CLOSE TO HOME!

Since we own textile and sewing facilities, we have more oversight for how our facilities operate. You can feel reassured that the garments they make are made with deep respect for the people who make them and our planet that provides the materials to produce them.

SOURCING & TRANSPARENCY

Everything that we do not manufacture ourselves, we source from our long-standing production partners.

Today, we already disclose 100% of our Tier 1 suppliers, owned facilities and licensees' factories.

SOURCING DONE RIGHT

Our goal is to have full transparency on all our products right back to the raw materials. We have already mapped our cotton supply back to raw materials.

We have a commitment to map our supply chain back to raw materials by 2025. With 45% of engaged suppliers mapped to raw materials in 2022, we are on track to reach our goal.

ALL OUR SUPPLIERS

FEATURES & FUNCTIONS

BREATHABLE

A material's breathability is measured in terms of how many grams of water vapour pass through a square meter of fabric over 24 hours (g/m²/24h). The higher the value, the more breathable the product.

WATERPROOF

The water column test indicates how many millimetres of water a fabric can withstand before the pressure causes it to leak. Measurements above 1,500 mm are considered waterproof.

EASY CARE

A special finish ensures that the shirts and blouses are easier and quicker to iron.

SPOT SHIELD™

Fabrics with a SpotShield™ finish are resistant to water and dirt. They even repel most oils without difficulty.

BIONIC-FINISH® ECO

The fluorine- and PFC-free finish prevents water and dirt from sticking to the material.

TEFLON® (DUPONT™)

Teflon® coatings ensure that fabrics are resistant to water, oil and dirt. What's more, this does not have any negative impact on the weight, look, colour or breathability.

LYCRA®

Lycra® is a brand name from the company Invista. It is an extremely stretchy elastane fibre with outstanding rebound properties. These textiles promise an improved fit and comfort to match.

LYCRA® T400®

This elastomultiester (LYCRA® T400®) is a modern double fibre material that can be stretched in all directions and then bounces back to its original shape. The high-quality material adapts to the movements of the wearer and always retains its shape.

AQUAPEL™ BY NANOTEX®

Developed in order to offer reliable protection against wind and water, Aquapel™ is still breathable and at the same time features environmentally friendly fluorine- and PFC-free technology.

DUPONT™ SORONA®

The sustainable insulation with renewable plant-based materials is made with reduced energy consumption and 50% less greenhouse gas emissions.

FLUOR- AND PFC-FREE

Fluorine- and PFC-free materials are more degradable, for the good of both us and the environment.

SIZE GUIDE

All of our measurements are based on actual "to fit" body sizes rather than the size of the garment itself.

For example, a polo shirt with a chest to fit size of 92-97cm / 36-38" will fit someone with this chest measurement; trousers with a waist to fit 50 Europe / 34", will fit a person with this measurement.

Here are some tips to help you choose the most appropriate garment size(s):

CHEST

Men: Measure around the fullest part of the chest, 2.5cm below the underarm. Women: Measure around the fullest part of the bust.

COLLAR

Men: Measure around the base of the neck.

WAIST

All: Measure around the natural waist, keeping the measuring tape taut.

LEG LENGTH

All: Measure from the top of the inside leg at the crotch down to where the trousers are normally worn with shoes.

HEIGHT

Kids: Standing still with feet together and flat on the floor, measure from the top of the head to the ground.
